

Becool Radiators

Design And Manufacture
Of Complete Cooling
Systems To Your
Requirements

- Air Blast Radiators
- Charged Air Coolers
- Oil Coolers
- Fuel Coolers
- Air Conditioning systems

A DIVISION OF

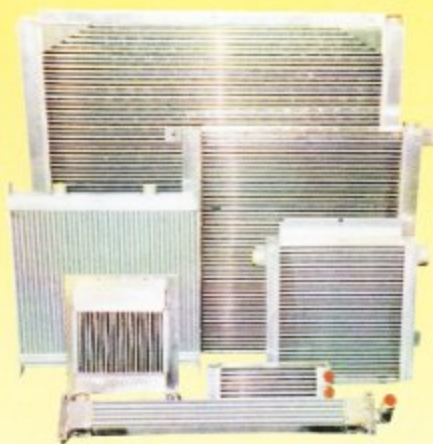

Gallay

Becool Radiators

Becool Radiators was founded in 1986 and has developed particular expertise in providing equipment for special-purpose vehicles which may be produced in relatively low numbers. Since 1998 we have been part of the Gallay Group which specialises in the production of engine cooling and crew air conditioning systems for a wide range of vehicles, plant and equipment.

We utilise computer-aided design and modern manufacturing technology combined with the experience and expertise built up over many years to produce compact, robust and reliable equipment.

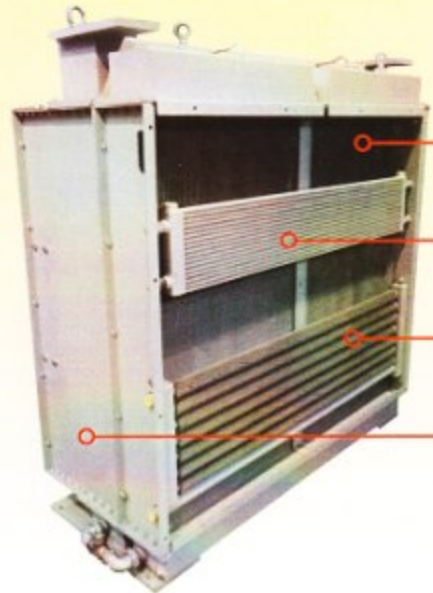

Sizes range from the smallest heater to the largest radiator

Manufactured in aluminium, brass, copper, stainless steel and mild steel.

Fans, guards, ducting, motors etc. can be supplied as part of the package if required.

We supply to engine builders and manufacturers of:

- Construction & industrial plant
- Mining & quarry equipment
- Marine & off-shore equipment
- Machine tools
- Agricultural machinery

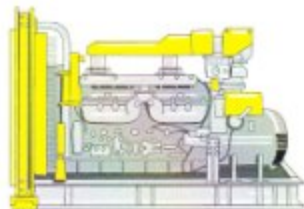

Aftercooler

Aluminium fuel cooler

Wirewound oil cooler

Radiator

The radiator used with the Cummins QSK 19 (800hp) engine
